

The most important features

- UV lamp for banknotes and other documents
- 2 x 6 Watt UV tube
- 1 x 4 Watt WL tube
- Magnetic head for MT/MG testing
- Magnifying glass

UV lamp with white light and magnetic ink control. Suitable for passport and document verification. Too time-consuming for a comprehensive counterfeit verification.

Note for use at counterfeit detection:

Please note that checking banknotes exclusively on UV basis does not provide reliable protection against counterfeit money. Check out our electronic counterfeit detectors CCE 1600 / 1700 / 1800 for reliable counterfeit detection.
